TO WHOM IT MAY CONCERN

We, at Gallery Moos, want to express herewith our enthusiastic support for the Miklos Legrady's Blue Spiral project to turn a depressing looking smoke stack of the Toronto Western Hospital into a cool piece of art.

We hope that with public and sponsors' involvement this project will grow to include 8 smoke stacks around Toronto to help our city look hip, artistic and inspire more creativity and joie de vivre around us.

Well done, Miklos, and good luck with your project!

Walter A. Moos
